

Amanda Mitchell
Software Developer

Career Objective

With ten years experience in creating and maintaining e-commerce sites, branding and social media for Middle Tennessee companies using established frameworks, I decided to advance my knowledge and formally pursue a professional career as a software developer. I am currently seeking a challenging team environment where my knowledge can be shared and enriched for the growth of the organization and self.

Experience

Software Developer | Nashville Software School February 2018 - Present

Intensive full-time software development bootcamp focusing on full stack development fundamentals and problem solving. The final half of the program executed in a simulated company environment with Scrum methodology.

Owner | AZ Novelties & Apparel March 2017 - Present

Currently manages online Amazon Marketplace and eBay Storefront for my family's specialty sports & novelties business. Manages artwork and online product inventory along with marketing via social media.

eCommerce and Marketing Administrator | Motivated Marketing July 2015 - August 2018

Solely ran entire e-commerce and social media presence online, point of sale systems, inventory and accounting (payroll, reporting, taxes) for a local retail establishment. Marketing duties including social media, artwork and corporate logos. Development experience included modifying existing e-commerce code to meet employer requirements.

Artwork and Web Developer | Daggero Development January 2014 - February 2015

Developed multiple websites for a contract software engineering firm utilizing established frameworks such as Joomla and Wordpress. Created corporate branding logos and associated artwork for several of the firm's clients. Development experience included modifying PHP and HTML website templates to match design requirements.

Online Marketing Supervisor | Greeting Pen Company March 2008 - July 2015 (helped until 2017)

Managed online e-commerce and Amazon Marketplace accounts for a manufacturer of customized pens. Imported products, created artwork, EDI, Quickbooks and customer service. Modified code for various e-commerce and web frameworks to meet company objectives.

Education

Full Stack Software Developer | **Nashville Software School**

General Education | **Columbia State Community College**

*Currently pursuing cloud developer certification | **Amazon Web Services***

Projects

2nd Capstone Placeholder:

Feels App: <https://feelsapp-5a1b6.firebaseio.com>

Developed a web application that collects medical information for multiple patients revolved around temperatures, medications given, and symptoms along with date and time stamps. Technologies used include React, Javascript, Bootstrap and Firebase. This information can be shown to a doctor at a later date.

Priss and Pearls e-Commerce Site: <https://www.prissandpearls.com/>

Developed and maintained e-commerce site for a clothing retailer using BigCommerce and Shopify, including all artwork. Modified PHP, HTML and client side source code to meet design requirements.

txtAboutit Anonymous Communication: <http://www.txtaboutit.com>

Developed website and corporate artwork for a provider of a web and SMS text based systems for students and mental health patients that facilitates anonymous communication with counselors.

Mobile Medical Records:

Developed website and front-end application artwork for a manufacturer of devices that allow people to store and transport their own medical records.

Greeting Pen e-Commerce Site: <https://www.greetingpen.com/>

Maintained existing e-commerce site for a manufacturer of specialty custom ink pens, including all product and corporate digital artwork.

Alex Marion:

Developed a website promoting renovation of a historic building in Marion, Illinois.

Waggoner Music:

Developed a website for a Christian band located in Franklin, TN.

TraceTrek: <http://tracetrek.org/>

Developed an online website including online fundraising for an Iraqi War veteran who decided to walk the entire length of the Natchez Trace from Natchez, MS to Nashville, TN.

Rrrth:

Developed logs and artwork and online presence for a Nashville-based retailer of specialty soaps and other products.

TNHeartSaver:

Created a website for a Franklin, TN based provider of CPR and cardiac services training.
